

The New Brunswick Rollout site included a **STARSS** Truth or Myth display in the Kings County Family Resource Centre. Participants were invited to guess the answers to the questions for a chance to win a mystery prize bag full of **STARSS** goodies.

FACT OR FICTION?

***Lighting a candle gets rid of smoke
and poisons in the air.***

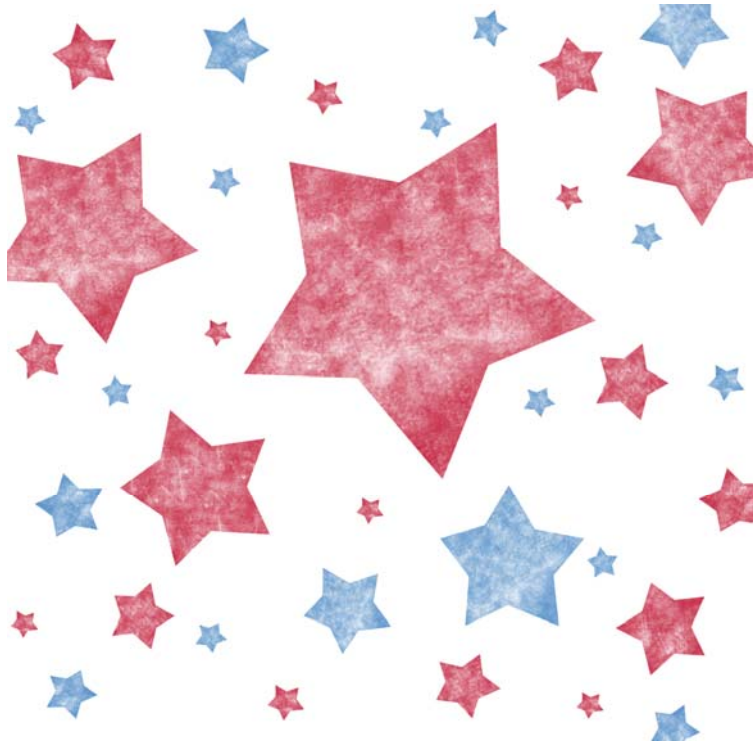

(Fiction – candles might help the room smell better but they do not remove the harmful gases in secondhand smoke.)

FACT OR FICTION?

Plants get rid of smoke and poisons in the air

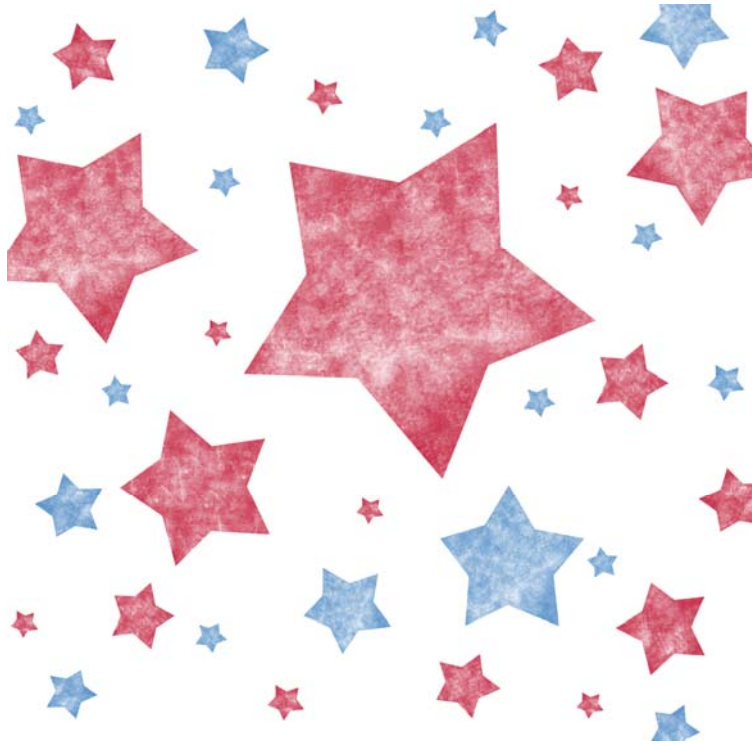

(Fiction – Plants are nice to have for many other reasons but they do not take out the harmful poisons in cigarette smoke.)

FACT OR FICTION

***Poisons in cigarette smoke can
stay in your wall for up to 2 years.***

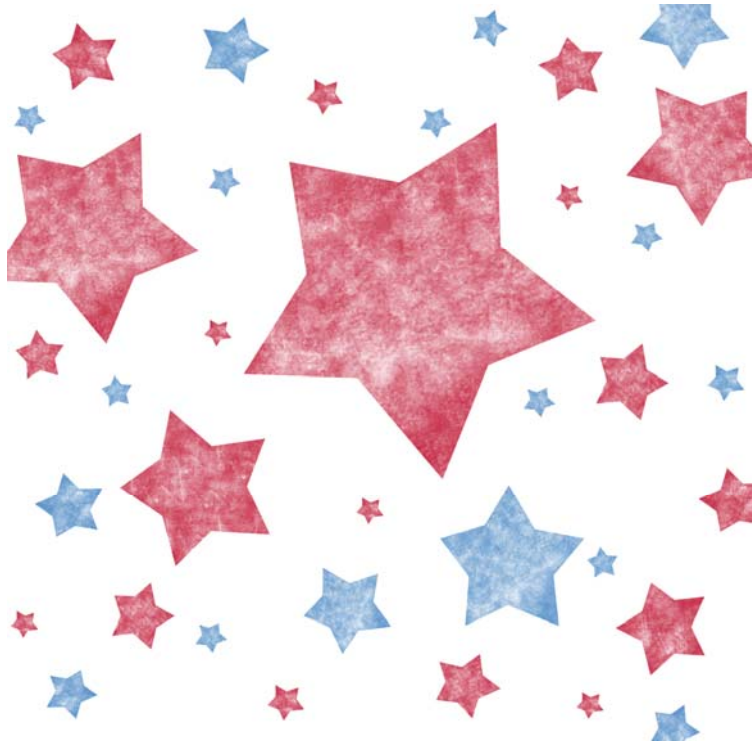

(Fact – Even washing your walls and painting does not get rid of it.)

FACT OR FICTION?

Smoking in front of an open window with a fan behind you blowing smoke out the window helps

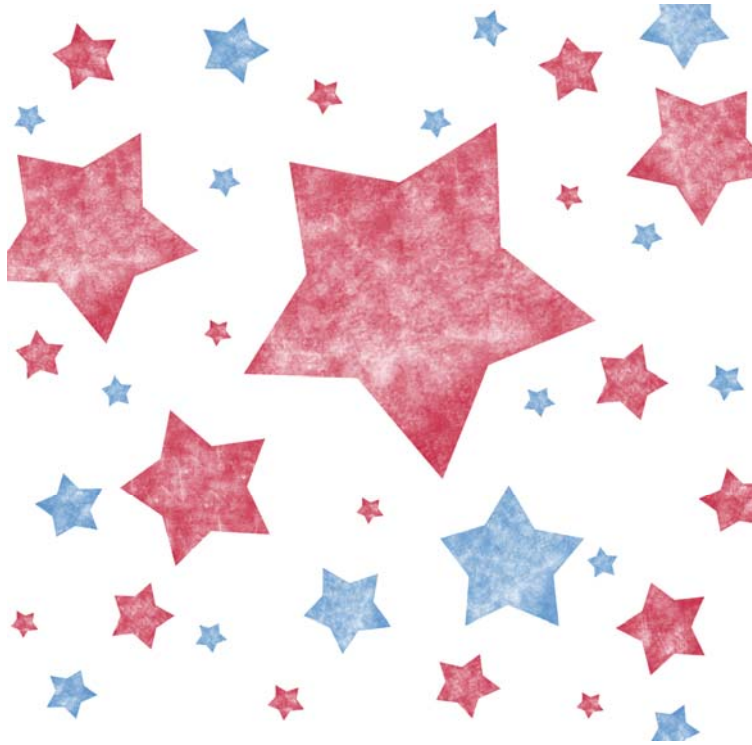

(Fact – Even if you are not ready to quit smoking, you can take small steps to help protect your kids while working towards smoking outside.)

FACT OR FICTION?

More women die from lung cancer than breast cancer

(Fact – More women get breast cancer, but the treatment and survival rate is higher than the treatment and survival rate for lung cancer.)

FACT OR FICTION?

It is illegal in N.B. to smoke in your car with a child under the age of 16 as a passenger.

(Fact – It is now illegal in most provinces and territories across Canada to smoke in a car when a child is a passenger.)
